PATENT
1403-0262P

IN THE U.S. PATENT AND TRADEMARK OFFICE

Applicant: Toshifumi SUGISAWA Conf. No.: 9826
Appl. No.: 10/790,048 Group: 3661
Filed: March 2, 2004 Examiner: Y. Beaulieu
For: METHOD AND APPARATUS FOR ALARMING DECREASE IN
TIRE AIR PRESSURE AND PROGRAM FOR ALARMING
DECREASE IN AIR TIRE PRESSURE

**Comments on Examiner's Statement of
Reasons for Allowance**

MS AF ✓
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

In response to the Examiner's Statement of Reasons for Allowance, dated May 16, 2006, Applicant respectfully submits that the statement by the Examiner to justify allowing the Application, to the extent that the prior art of record fails to teach alarming decrease in tire air pressure in which decrease in the air pressure is determined on the basis of "rotational velocity" information, is incorrect with respect to claim 5, and does not reflect the fact that allowed claim 5 does not recite "rotational velocity." Applicant respectfully submits that

5 is allowable because of features recited in claim 5 other than "rotational velocity," which is clearly not recited in claim 5.

Applicant also respectfully requests that the patent term adjustment of 148 days not be reduced at all, because this "Comment" paper had to be filed to address the aforementioned inadvertent mis-statement of fact in the Examiner's Statement of Reasons for Allowance.

If necessary, the Commissioner is hereby authorized in this, concurrent, and future replies, to charge payment or credit any overpayment to Deposit Account No. 02-2448 for any additional fees required under 37 C.F.R. §§ 1.16 or 1.17; particularly, extension of time fees.

Dated: July 26, 2006

Respectfully submitted,

BIRCH, STEWART, KOLASCH & BIRCH, LLP
